VISHVAJEET CHANDAN WAICHAL

Software Developer | Python & Flask | Flutter | Full-Stack Web Development | AI/ML Projects
+91 7620739069 | vishuwaichal@gmail.com | Sangli, Maharashtra, India
LinkedIn | GitHub | Portfolio: vishuwaichal-prog.github.io

PROFESSIONAL SUMMARY

MCA graduate and full-stack developer skilled in Python, Flask, Java, Flutter and Django, with hands-on experience architecting and independently deploying end-to-end products, including an AI image-generation SaaS (Grafx Vishwa), a production HRMS Android application, and two business management apps for a tailoring shop and an event-rental company. Strong OOP and REST API foundations and a track record of shipping real-world software; looking to bring that builder mindset to a collaborative engineering team.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, Dart, C, C++, PHP
Frameworks & Web: Flask, Django REST, Flutter, HTML5, CSS, REST APIs
Databases: MySQL, SQLite (sqflite)
AI / ML: Stable Diffusion, Flask-based AI Image Generation
Tools: Git, GitHub, VS Code, OBS Studio

EXPERIENCE

Android Developer Intern | Sanpurnam Infotech, Sangli Jun 2025 - Aug 2025

- Delivered 6+ core HR modules end to end (Employee Management, Attendance, Leave, Task Assignment, Shift Scheduling, Push Notifications) in "Your HRMS", a Flutter & Dart app shipped as a production Android APK.
- Built 2 role-based dashboards (Admin & Employee) with distinct access control for real-world organizational use.
- Integrated 5+ REST API endpoints (Django backend) with MySQL, enabling real-time data sync across Admin and Employee modules.

PROJECTS

Waichal Brothers - Tailoring Shop Management App (in testing) | Flutter, Dart, Flask, MySQL 2026

- Staff-facing Android app replacing a desktop tool: customers, services and price list, order tracking with delivery dates, and a daily dashboard of due and ready orders.
- Company accounts with per-company orders and pending balances; secure owner and staff login with role-based access.

SB Lights & Sound - Event Rental Management App (in testing) | Flutter, Python, Flask, SQLite (sqflite) 2026

- Built for a sound, LED screen and stage-light rental business: multiple services with editable item lists and day rates, replacing books and spreadsheets.
- Creates estimations and invoices with PDF preview and sharing; tracks orders by status (pending, confirmed, completed, cancelled) with advance and balance, plus customer records stored on-device.

AI Image Generation SaaS - Grafx Vishwa | Python, Flask, Stable Diffusion

- Architected solo an end-to-end AI image-generation platform with Flask and Stable Diffusion; supports concurrent user sessions with session handling and access controls.
- Cut manual design effort by ~90% through on-demand, prompt-based asset generation with real-time rendering.

Your HRMS - HR Management Mobile App | Flutter, Dart, Django REST API, MySQL

- Single codebase serving 2 roles (Admin & Employee) with role-based dashboards; 6+ admin features (employee registration, shifts, tasks, leave approvals, attendance reports) and 4+ employee features.

Fashion Fiesta - Apparel E-commerce Website | HTML, CSS, JavaScript, PHP

- Built a full-stack store from scratch with product listings, cart, login/signup and payment flow; fully responsive across desktop and mobile.

EDUCATION

Master of Computer Applications (MCA) - Software & Web Development | Shivaji University, Kolhapur 2024 - 2026

12th (HSC) | Vinod Shivaji Bhate Junior College, Sangli - 60% 2020

10th (SSC) | Sangli High School, Sangli - 77.60% 2018

CERTIFICATIONS, ACHIEVEMENTS & LANGUAGES

Certifications: C Programming, C++ Programming, Core Java
Achievements: Winner, Wild Ventures (Business & Management event), ELECTROVERT'24, Walchand College of Engineering | Runner-up, Intercollege Graphic Design Competition | Participant, Code Hunt and Blind Coding competitions
Languages: English (Professional), Hindi (Native), Marathi (Native)
