PROFESSIONAL SUMMARY

MCA graduate and full-stack developer skilled in Python, Flask, Java, and Flutter/Django, with hands-on experience architecting and independently deploying end-to-end products — including an AI image-generation SaaS (Grafx Vishwa) and a production HRMS Android application. Combines strong OOP and REST API foundations with a track record of shipping real-world software, and is looking to bring that builder mindset to a collaborative engineering team.

TECHNICAL SKILLS

Languages: Python, Java, C, C++

Web Technologies & Frameworks: Flask Framework, HTML5, CSS, JavaScript, PHP, REST APIs

Mobile Development: Flutter, Dart

AI / ML Tools: Stable Diffusion, Flask-based AI Image Generation (Grafx Vishwa)

Databases: MySQL

Developer Tools: Git, GitHub, VS Code, OBS Studio

EXPERIENCE

Android Developer Intern | *Sanpurnam Infotech, Sangli* Jun 2025 – Aug 2025

- **6+** core HR modules delivered end-to-end — Employee Management, Attendance Tracking, Leave Management, Task Assignment, Shift Scheduling, and Push Notifications — in 'Your HRMS', a Flutter & Dart mobile app deployed as a production Android APK.
- **2** role-based dashboards (Admin & Employee) built with distinct access control, supporting real-world organizational use.
- **5+** REST API endpoints integrated (Django backend) with a MySQL database, enabling real-time data sync across Admin and Employee modules

PROJECTS

AI Image Generation SaaS — Grafx Vishwa | *Tech: Python, Flask, Stable Diffusion*

- **1** end-to-end AI-powered image generation SaaS platform architected solo, using Flask for the backend and Stable Diffusion as the core generative model.
- Concurrent user sessions supported via session handling and basic access controls
- **90%** reduction in manual design effort enabled through on-demand, prompt-based asset generation with real-time rendering .

Your HRMS — HR Management System Mobile App | *Tech: Flutter, Dart, Django REST API, MySQL*

- **2** user roles (Admin & Employee) supported through a single codebase with role-based dashboards and access control.
- **6+** Admin-side features shipped: employee registration, shift assignment, task creation, leave approvals, and attendance report generation.
- **4+** Employee-side features shipped: attendance marking, leave applications, task status updates, and profile management with notification viewing.

Apparel E-commerce Website — Fashion Fiesta | *Tech: HTML, CSS, JavaScript, PHP*

- **1** full-stack e-commerce platform built from scratch, covering product listings, shopping cart, user authentication (login/signup), and an integrated payment flow.
- **100%** responsive UI implemented, tested across desktop and mobile breakpoints for cross-device compatibility.

EDUCATION

Master of Computer Applications (MCA) 2024 – 2026
Specialization: Software & Web Development | Shivaji University, Kolhapur, Maharashtra

- **12th (HSC) 2020**

Vinod Shivaji Bhate junior College Sangli . | **60%**

- **10th (SSC) 2018**

Sangli Highschool Sangli . | **77.60%**

CERTIFICATIONS

- C Programming
- C++ Programming
- Core Java
